THE TRANSFORMATIVE POWER OF OIL PALM

CONFERENCE:

Bioinputs for Sustainable Agriculture, Food and Environmental Security.

MARCOS ANTÔNIO SOARES

Professor Federal University of Mato Grosso (UFMT) |
UFMT - Department of Botany and Ecology.
Brasil.

SESSION 2

SUSTAINABLE CROP
MANAGEMENT.

SEPT 28 | 2022

Professor at the Federal University of Mato Grosso (Cuiabá Campus). He has been the coordinator of the Graduate Program in Biological Sciences, and the State Coordinator of the Ph.D. Program in Biotechnology and Biodiversity in the Midwest and the Specialization Program in Microbiology. Also he teaches undergraduate and graduate courses.

In recent years, he has completed two postdoctoral internships in endophytic ecology and bioinformatics. Coordinates the laboratory of biotechnology and microbial ecology.

Responsible for the Biotechnology and Microbial Ecology Laboratory/UFMT where he develops projects funded by federal and state agencies. Our group's interest focuses on understanding environmental microbial communities and endophytes for biotechnology products and process generation related to microbiota value and biodiversity conservation.

He is a permanent faculty member in the postgraduate programs in Ecology and Biodiversity Conservation (MSc and Ph.D.) and Biotechnology and Biodiversity (Ph.D.) and collaborates with the MSc programs in Environmental Science. He advises undergraduate, master's, and doctoral students.
