THE TRANSFORMATIVE POWER OF OIL PALM

CONFERENCE:

## *Circular use of oil palm residues and the circular palm oil mill.*

### **WOLTER ELBERSEN**

Sr Researcher  
Wageningen Food & Biobased Research.

**SESIÓN 4B**

ALTERNATIVE USES OF BIOMASS AND SUSTAINABLE  
MANAGEMENT OF OIL PALM MILL.

**SEPT 29 | 2022**

**Wolter Elbersen** has 25 years of experience assessment of biomass availability and the design of a sustainable biomass supply for energy, chemicals, and materials. He has coordinated projects on oil palm sustainability in Colombia, Malaysia, and currently in Indonesia. These projects aim to increase sustainability and profitability through the circular use of residues. He currently works on quantifying circularity and effects on biodiversity of different biomass utilization systems including palm oil, pineapple, and cashew. He is a management board member of EERA (European Energy Research Association) Bioenergy coordinating the program on biomass supply. He has been a member of The Dutch Sustainable Biomass Commission advising the government on biomass policies in the context of national sustainability goals
