## Soh Kheang Loh

Head of Energy & Environment Unit - Malaysian Palm Oil Board (MPOB)

Dr. Loh has extensive experience in organometallic chemistry, green chemistry, and environmental chemistry. She oversees and directs R&D in biomass, bioenergy & bio-refinery, biolubricant, waste stream valorization, and energy & environment to keep the oil palm industry at the forefront of science and foster economic growth and innovation.

She has a PhD in Inorganic Chemistry from the National University of Singapore (NUS). She is involved in national biogas implementation, ISO/Malaysian Standards development, climate change negotiation, and establishment of National Communications (waste and energy sectors). Commercialized projects include biogas trapping, palm mould oil, and bioorganic fertilizers.
