

ENVIRONMENT FACTS

WHAT COLOMBIAN PALM OIL SECTOR HAS DONE

Planning and design of palm oil projects in harmony with their environment.

Guidelines and successful experiences to preserve high conservation value areas.

Adoption of good practices with an agro-ecological focus.

BIODIVERSE PALM OIL LANDSCAPES PROJECT

ENVIRONMENTAL

Palm oil

cultivation in Colombia has been conducted in previously transformed areas, occupied by short-cycle crops or pastures.

Colombia

can grow in terms of agricultural production without deforestation.

ZERO DEFORESTATION AGREEMENT

In 2017

Fedepalma signed the Zero Deforestation Agreement with companies from the palm oil sector, the Ministry of the Environment and Sustainable Development, the Ministry of Agriculture and Rural Development, the Ministry of Industry, Trade and Tourism, other government bodies, civil society organizations and other actors from the palm oil supply chain.

ADOPTION OF INTERNATIONAL SUSTAINABILITY STANDARDS

By 2018

Eleven Colombian palm oil companies are certified, and more than 14% of palm oil has been certified by the RSPO. 23 companies are currently in the process of RSPO certification.

Since 2004

Fedepalma is a member of the Roundtable on Sustainable Palm Oil (RSPO)
