

Responsible Growing: Deforestation-Free Palm

Historical results

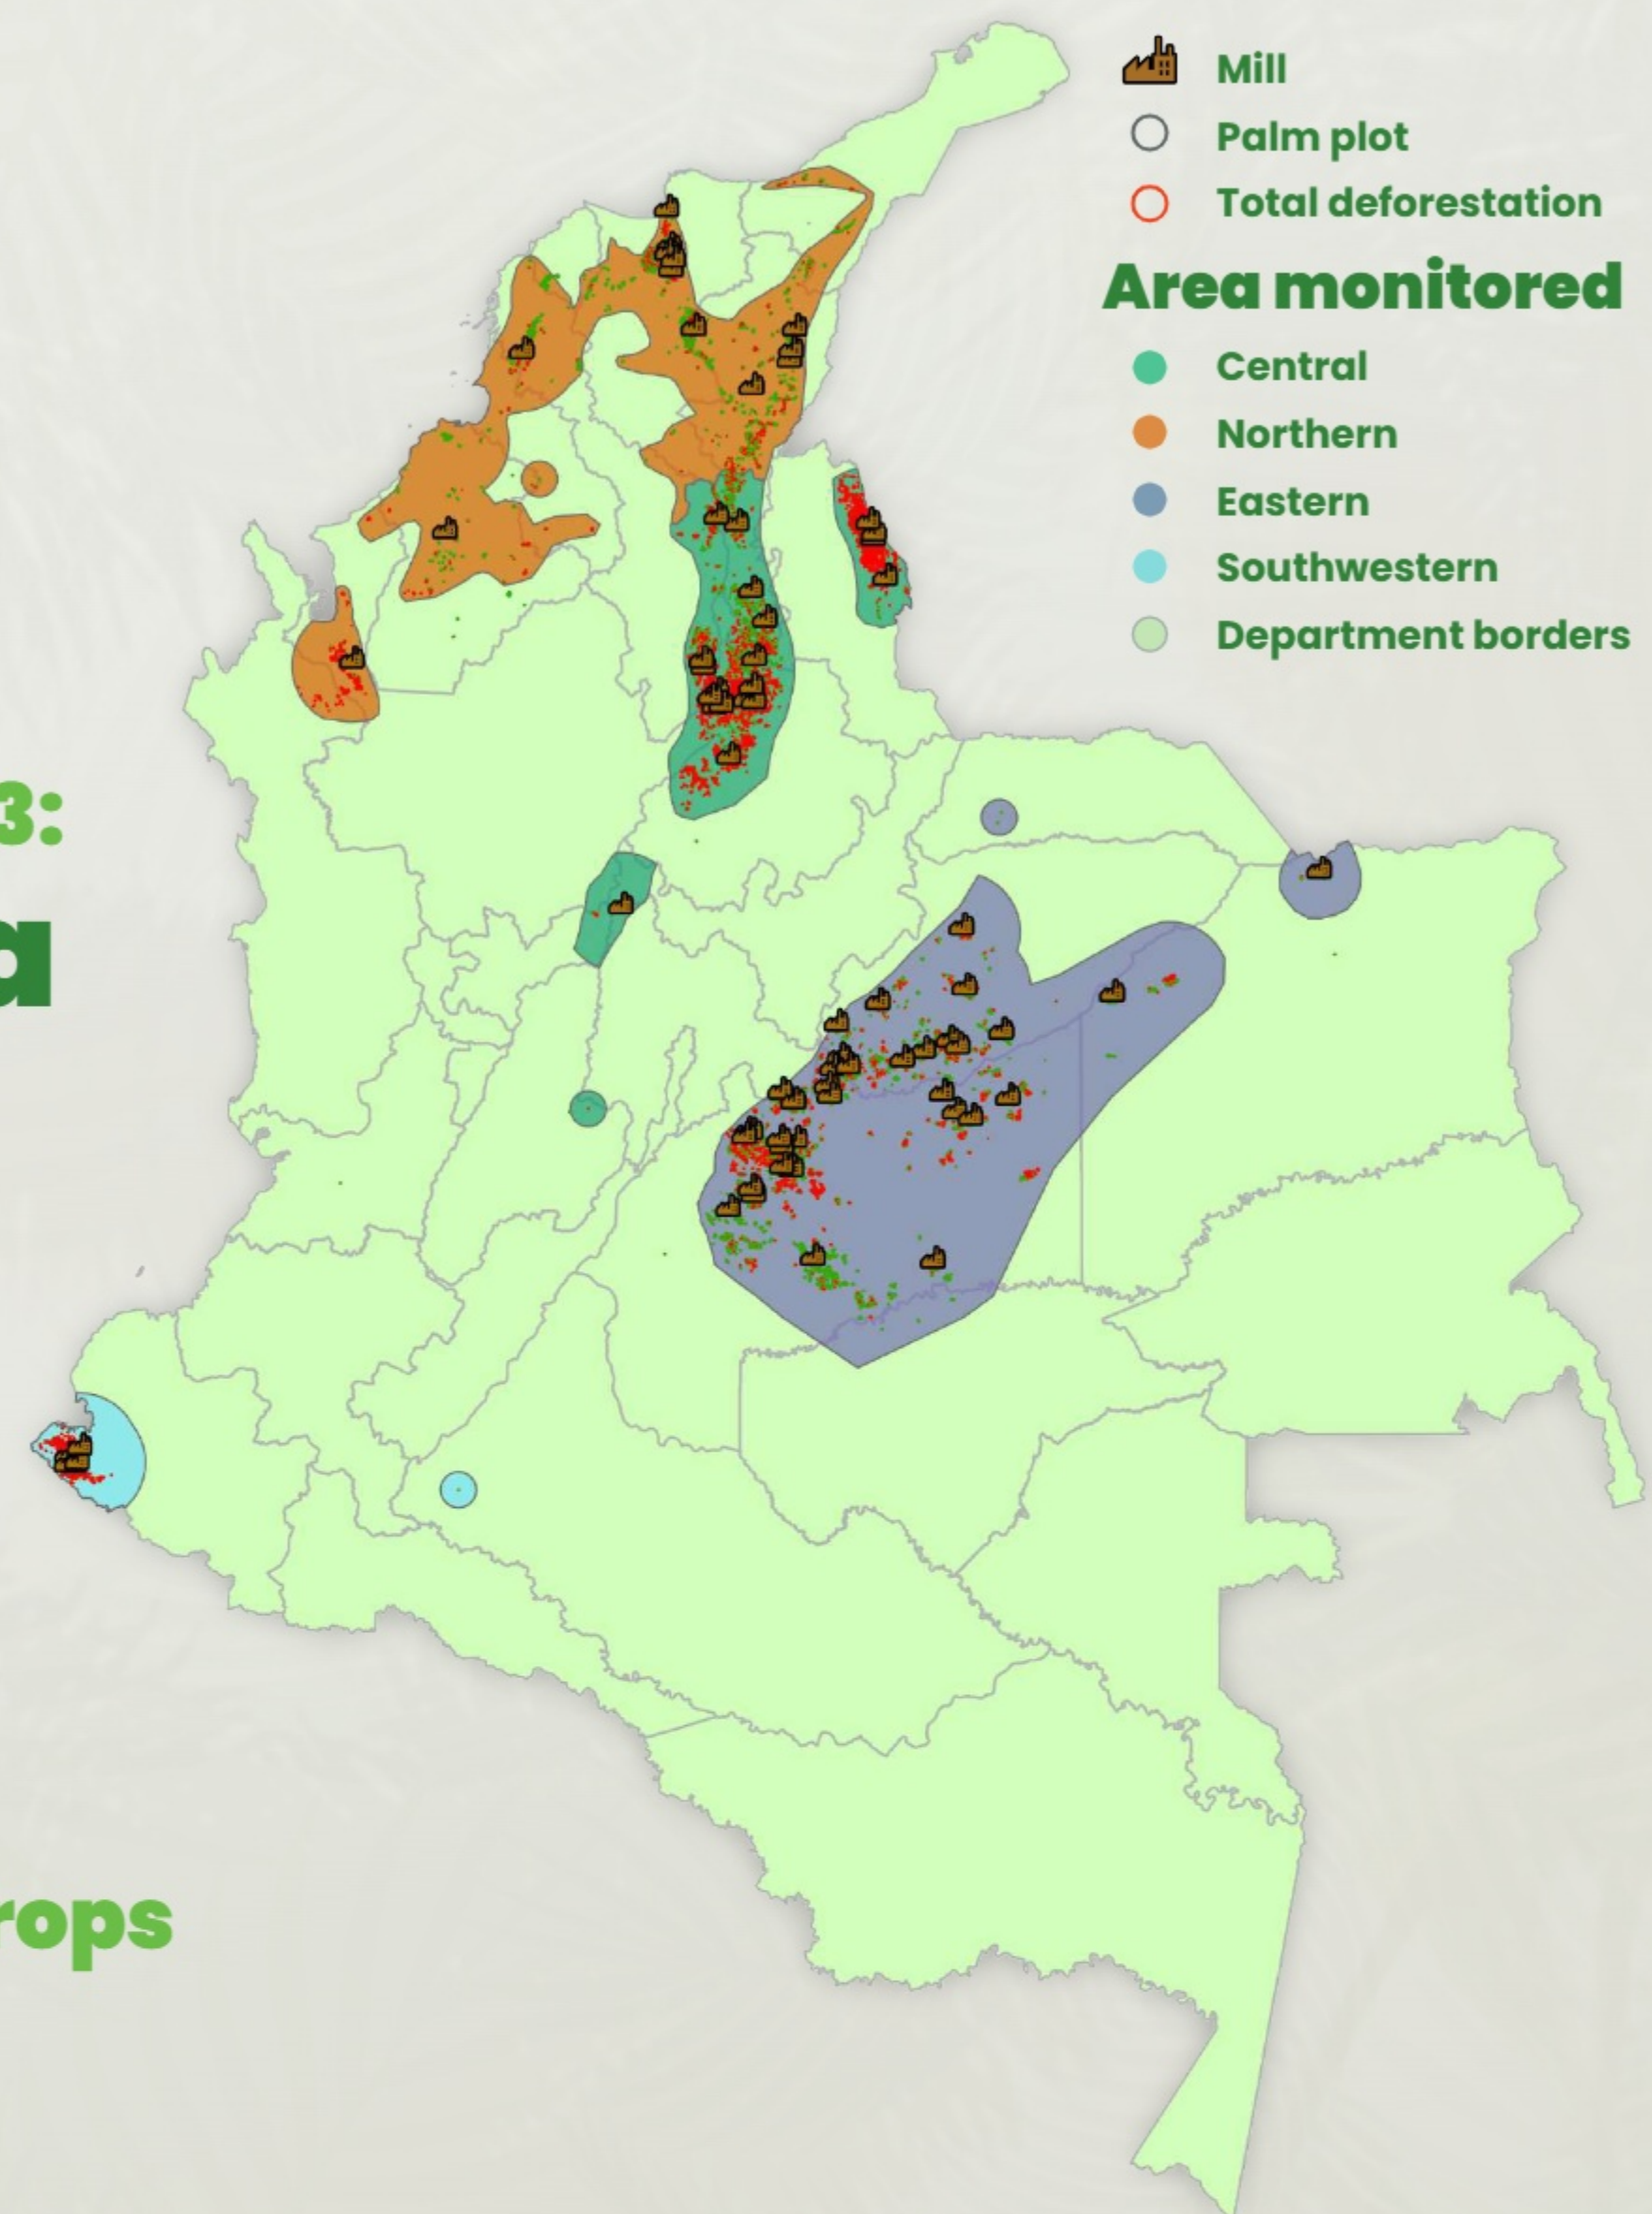

Reporting period: **2011-2023**

Total area under study
(area monitored):
18.484.050 ha

Area planted in
oil palm as of 2023:
614.699 ha

Total deforested area
by multiple causes: **944.097 ha**

Area deforested
by oil palm: **6.928 ha** = to **0,7%**
of the total
deforestation = **1%** of
oil palm crops
as of 2023

Area deforested by oil palm within the
framework of the European Deforestation
Regulation (EUDR 1115), 2021-2023. **500 ha** Equal to **0,08%**
of new palm crops.

**Oil palm crops are
99% deforestation free.**

**The oil palm sector is not
a driver of deforestation
in Colombia.**
